## Newsletter 1<sup>st</sup> July 2022

### Orchestra

A huge congratulations to the school orchestra who joined with other local schools for a day of rehearsals culminating in a fantastic concert. The children worked enthusiastically and with gusto, as they met with musicians from across the borough to perform together. A huge thank you to Tesia, our orchestra leader, and the parents that supported in taking children to the orchestral day.

### Award Winners

Congratulations to J and A in 6V who win the Sports Award and Helping Hands Cup respectively. Both are excellent role models with their commitment and enthusiasm for learning. Well done, boys.

### Mayan Workshop

As part of their history learning, Year 6 enjoyed a day of Mayan discovery, using artefacts, group research and workshops to explore the wonders of this civilization.

### Sports Day photos

[Sports Day photos](#) are now available to view on our online gallery. A big thank you to Melissa Franklin for capturing the day so well.

### An unexpected discovery!

On Friday, H went litter-picking in school and found something very unexpected. There, in the bottom of a plastic bucket, was what looked like a baby snake. It was a shiny copper colour on top with black on the underside.

Linking to his science knowledge, some research revealed that it was a Slow Worm, which is a type of reptile. Everyone who came to see her – yes, H discovered how to tell if she was a female - thought she was adorable.

### Year 2: Wetlands Centre

Year 2 visited the Wetlands Centre on Friday to support their learning about plants, living things and their habitats in science. They also made links to their environmental learning.

### Safeguarding
