

## References for Independent Schools

The school is always happy to support pupils in applications to independent schools. However, often these schools require information above what is expected from the standard transition information that is provided for all pupils during school moves.

As a result, East Sheen Primary School will charge for the following elements of the independent school admissions process:

- Providing previous end-of-year reports: **Free**
- Independent School Reference Form (this reference form is suitable for all independent schools, and is completed through the requesting school's portal/contact). To support the content of the reference, parents are requested to complete and return [this information form](#): **£50**
- Registration for, and administration in school of, the ISEB test (parents must register with the ISEB portal and select ESPS at the invigilation centre if applying to a secondary school that requires ISEB): **£130**

Families experiencing financial difficulty are invited to discuss the above charges with the headteacher.

*Prices are effective from January 2026*
