What was the main question asked by the community?	Why do people hurt other people?
Did the enquiry exceed your expectations, or not live up to them?  Please comment on at least one aspect that was positive.	(Year 6 class)  It took a while for the children to open up in this enquiry. The question came from a child who rarely volunteers in class, so that helped his self esteem and was really nice for me to witness. After some time we spoke about how feelings get in the way and people do things they don't really mean to do. There were some comments about how the children in the class have felt when they have been hurt. Overall I was impressed with the enquiry.
